OUR SOLUTION

We make it effortless

Our platform offers you the ideal solution for collecting and displaying testimonials.
It's user-friendly for you and hassle-free for your customers to submit their feedback!

Collect

Turn word of mouth into evergreen social proof

Collect social media mentions, videos, and 3rd party reviews to display on your website all in one place.

Build stronger relationships by staying on top of customer shoutouts, and putting the words of raving fans on your website.

Try FREE now

Display

Skyrocket your website conversions

Curate your testimonials into a high-converting Wall of Love to add to your website (with no-code).

Save time adding and updating testimonials on your website and focus on revenue-generating activities.

"Testimonial has been a big part of my conversions"

- Kenneth Cassel, Founder of Slip.so (YC S21)

Try FREE now

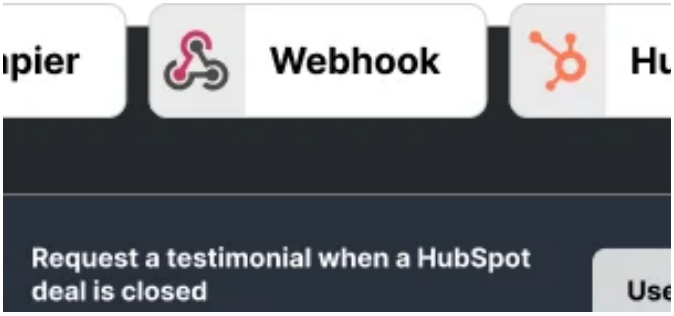
Encourage

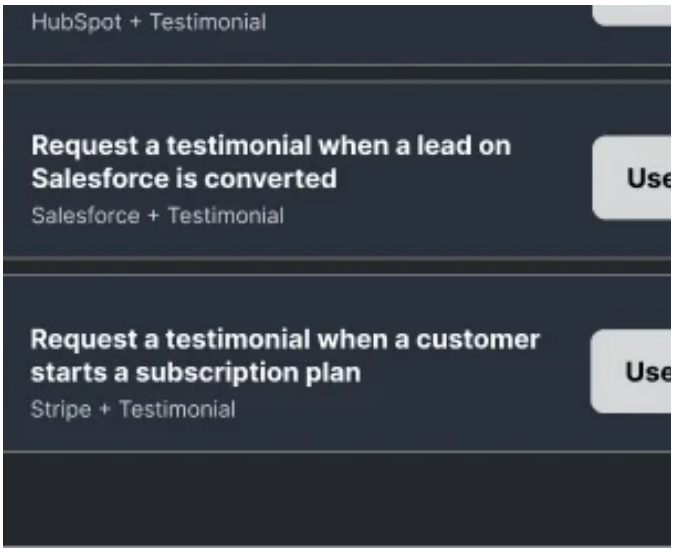
Make it super easy for your customers to submit their testimonials

Embed the testimonial collecting widget on your website in seconds and give customers a place to leave feedback right from your own domain.

Finally, stop “hoping” for customers to leave testimonials — send them to a dedicated page and collect high-converting social proof.

Try FREE now





Automate

Don't let customers's testimonial slip away

Make collecting testimonial part of your sales & marketing pipeline by creating custom automation to request testimonials when they are most likely to do so.

With automation, every time someone upgrades or does x within your platform, a testimonial request can be sent to your customers.

Try FREE now

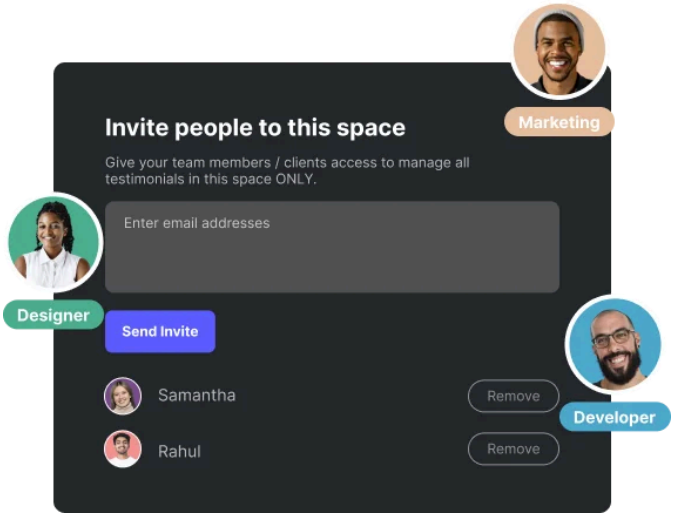
Integrate

Integrate with hundreds of review sites and web builders

Import reviews from platforms like G2, Capterra, TrustRadius, Product Hunt, App Store, etc. As well as social media like Twitter, Instagram, and LinkedIn.

Once you are done, you can embed your testimonials on any website such as Webflow, WordPress, Framer, and many more.

Try FREE now



Collaborate

Collaborate with your team

Testimonial makes it a breeze for everyone on the team. From your dev team adding the widgets to the marketing department to capture and curate testimonials.

And of course, you can send updates on Slack when a new testimonial is received, With testimonial.to, you will all set when it comes to social proof for your business.
