Encourage

Make it easy for students to appreciate you

Platforms like Kajabi don't support testimonial collection. But you can add Testimonial to give students a place to leave feedback inside your course.

Finally, stop “hoping” for students to leave testimonials — and send them to a dedicated page showing past videos for encouragement to collect high-converting social proof.

Automate

Set and forget testimonial collection

Embed the testimonial submission widget to your course so you never forget to ask your students to leave their testimonials — start building a library of testimonials to skyrocket course sales automatically.

This is how Justin automated the testimonial collecting process on Kajabi, just by embedding the submission widget at the end of his course. 👉
